Dear Lee,

What can I say, except it's working. Since the launch of our new website we have had a tremendous response. If you remember we had two goals with the website. The first was to allow current customers to make reservations online, and the second was to have a web presence where potential customers can find our website and see our rooms online. Since the launch about 2-3 weeks ago we have taken 7 reservations through the online page and have sold one online package. Of the seven reservations 6 have come as a direct result of new customers doing a search to find either Motels or our Motel online. We love the exposure our website is bringing our Motel, not to mention the business it is bringing.

Your services were professional and affordable. I have enjoyed working with you on the website and I have even learned a thing or two about the internet and websites. We figure our website will have brought us enough new business to have paid for itself by the end of the year. I have recommended your services to several other local business' not to mention one of our guests who made an online reservation wanted to know how we have made our site so effective, so I referred them back to our site to get your information. I am just glad I found you before my competitors did. Once again thank you for our new website and new business its created.

Sincerely,

Matt Stritzinger
