Dear Lee,

I would like to take this opportunity to thank you for doing such a wonderful job creating our web site for the Chicago Pike Inn & Spa. This web site really showcases our beautiful Bed & Breakfast. It is also very user friendly.

I get compliments all of the time from guests regarding our web site and how easy it is to use!

I know that we are booking more rooms because people just fall in love with the place because how great it looks on the web. They really like the virtual tours of all the rooms. People like to see what we have and not just read about it.

It is also easy for me to add and modify my site when I need to make changes or have specials.

I very much appreciate the support from your office when I need it

Sincerely,

John Krajny
