To Whom It May Concern;

I cannot thank Lee Younkman enough for his time and the special attention that he gave me in developing my web site. His patience in explaining things and in providing me with options was very helpful. I was impressed with the speed in which he was able to put it all together to get my site up and running thereby beating the anticipated effective date significantly. Offering very reasonable fees was critical in making this valuable tool available to a small and relatively new business such as mine. Best of all, is knowing that his is always there when I need him to update or expand my site as I continue to grow.

Creative Web Designing has provided me with the quality, guidance and personal concern that support me in the opportunity to succeed.

With great appreciation
